**B. TOPIC(S)**

B-1 "Discuss Possible Topics to be Reviewed by Lodi Budget/Finance Committee During the Course of Fiscal Year 2007-08"

City Manager King briefly introduced the subject matter.

Deputy City Manager Krueger provided an overview of the Budget Committee recommendations to the City Manager as presented in the fiscal year 2007-08 budget document, "Recommendations from Sub-Committees." He also reviewed the recommendations regarding the energy cost adjustment, Parks and Recreation/Hutchins Street Square organizational review, Code Enforcement consolidation, financial system, mobile home rates, cable franchise fees, fleet replacement policies, economic development, community redevelopment agency, and capital improvements and deferred maintenance study.

In response to Mayor Pro Tempore Mounce, Mr. Krueger stated the minutes from the Committee's meetings will be provided to Council as requested.

In response to Council Member Hitchcock, Mr. King stated there is an ongoing process of reviewing fire overtime as there was some reduction in the 2007-08 budget, but not as much as had been anticipated. He stated some of the reasons may be that not all the positions were filled and there is an increase in the training budget. Mr. King stated they will continue to monitor planned overtime, training overtime, and operational overtime. He also stated special events time is being charged to an incremental line item to calculate a special events budget in the future.

Council Member Hansen stated he would like to see a detailed review of the fire overtime one year after all the positions have been filled to determine if the reduction in overtime did offset the additional personnel. Mr. Krueger stated the overall Fire Department budget is still in the context that it needs to be in regardless and the goal has been achieved in that respect.

In response to Mayor Johnson, Mr. Krueger stated the new AS400 computer software program will be delivered in approximately six weeks and implemented shortly thereafter.

In response to Mayor Johnson, Dave Kirsten stated the use of certain consultants in the redevelopment project was not warranted because there was no serious opposition to the redevelopment project.

In response to Mayor Johnson, John Johnson stated he was opposed to the \$50,000 consultant fee for the capital improvement piece because the Committee and staff are capable of making the list themselves.

In response to Mayor Johnson, City Manager King stated staff may still conduct an internal review of a selected department and/or function in conjunction with the Committee.

Council Member Hansen suggested the Committee could review the park maintenance program, potential sales tax for public safety, and Transient Occupancy Tax (TOT). Mr. Krueger stated the Parks and Recreation Department did make presentations to the Committee, a white paper was completed regarding public safety, which can be expanded on, and a review can be done regarding the TOT and any other potential revenue sources. He stated subcommittees analyzed some of the issues on their own time because staff time is limited.

In response to Mayor Johnson, Mr. King stated the results of the citizen survey will be presented at the July 31, 2007, Shirtsleeve Session. He also discussed the role of citizen advisory committees versus temporary professional expertise, the privatization of mid-management functions, and the process of information gathering and responses.

Discussion ensued between the City Council and the Committee regarding options available for review with respect to the redevelopment matter.

Discussion ensued between Council Member Hitchcock and City Manager King regarding the need for a consensus on what the Committee's charge is, previous redevelopment efforts and the related costs and consultants, possibility of an election and timing for the same, and the possible usage of the Committee to review a feasibility study for the project development area.

In response to Mayor Johnson, Mr. King stated he expected to use existing committees, rather than creating new committees, in connection with the redevelopment project.

In response to Mayor Johnson, Mr. King stated the Planning Commission will be necessarily involved because it has a statutory role.
